## Features

Stay on top of things without spending all day figuring them out. The sophisticated, stylish folding design defines both the look of the phone and how it works. The bright, 128x160 internal display features up to 65,536 colors and is ideal for convenient mobile browsing as well as viewing color pictures and video clips captured on the integrated VGA camera. A second, external display is an ideal palate for screensavers and wallpapers as well as information on incoming calls, date and time, and phone status.
